APPENDIX B

Rideau Lakes Public Library MakerSpace Printing and Material Costs.

There are small fees for using our printing and cutting tools to cover the cost of materials:

	Costs	Maximum
3D Printer	10¢/ g of PLA filament	250 g
Cricut Maker	50¢/sheet paper $5/vinyl print $7/iron-on print You are welcome to bring your own materials to experiment.	**Vinyl** Max 12" 12 **Paper** maximum 50 pages Subject to how many creators are in the MakerSpace wanting to use this tool.
Button Maker	1st one free. 25¢ - all sizes	Maximum 25 buttons/visit
Die Cutter (Elgin Branch)	Bring your own material	One hour on the die cutter

Access to equipment and tools maybe limited during times when we have more creators in our space!

Print Centre Guidelines

Plan ahead to complete your print job 1/2 hour before the library closes.

If you want to make more than the maximum allowance please contact us.

To be part of the creation process, please stay with and check often while your project is printing.

Printing images, models or parts of offensive items of any size is not permitted.

Prints must not infringe on any provincial or federal laws, including copyright and intellectual property rights.

You may bring your own materials (paper, fabric, etc.) for the Cricut machine and die cutter (Elgin Branch location) but they must be compatible with our equipment.

You can create files at the library using a public internet computer or in the MakerSpace. Some design software may be available for free to download and work on from home. You can prepare your project in advance and bring your file with you.

This is a discovery environment; we cannot guarantee the success and quality of a printed project as this is a trial and error process!
